

“My class is comprised of students from many different countries and cultures. It's fantastic that I can learn so much from the people around me.”

Phuong Nguyen
MBA (Finance)

My life here in Leicester is fantastic. I have had the chance to experience an independent life, make decisions on my own and take responsibility for myself in an exciting country.

I live in halls of residence close to campus with many other overseas students. It has been a great opportunity for me to make friends, learn from them and also teach them about my own country and culture. This is the first time I have lived far away from my family and I did feel a little homesick at first. However, my new friends soon helped me solve that problem by taking care of me.

I use the excellent internet facilities available at DMU to keep in touch and share my experiences with my family and friends back home.

My English skills have improved so much since starting my course. My team-work and presentation skills have also been enhanced considerably compared to before I came to the UK.

I think the course has prepared me well for going into the job market. When I graduate, I will come back to Vietnam to work. With my degree it will not be difficult to find a job. I am really confident about the knowledge that I obtained from this course. I believe it will be a sound basis for my future career no matter what job I choose.
