

19. Disagreement Amongst Examiners

Where examiners fail to agree on a recommendation they shall report separately on the appropriate form to the Graduate School Office. The Director of the Graduate School in consultation with the Research Degrees Committee may:

- a) accept a majority recommendation, provided that this includes the recommendation of at least one external examiner; or
- b) accept the recommendation of the external examiner or, if more than one, the agreed recommendation of the external examiners; or
- c) appoint an additional external examiner.

Where an additional external examiner is appointed, he/she shall not be informed of the recommendations of the other examiners but shall prepare an independent preliminary report on the basis of the thesis and, if he/she considers it necessary, conduct a further oral examination. On receiving the report of this additional external examiner the Director of the Graduate School in consultation with the Research Degrees Committee shall have options 18.2 a), b) or c) available to it.
